防災ラジオが訓練で自動起動します！！

訓練日時

２０２６年１１月１１日(水) 午前１１時００分（国民保護情報）

放送内容

訓練時刻になると、防災ラジオが自動起動した後、最大音量で**チャイム音が鳴り、「只今から、訓練放送を行います。」と防災ラジオから音声が流れます**。

訓練目的

大規模な地震発生時や、国民保護事象(ミサイル発射やテロ攻撃)発生時などに、国から発表される緊急情報(J-ALERT)によって、自動的に防災ラジオが正しく起動するか確認するために訓練を行います。ご家庭・事業所においても自動的に起動するか、ご確認をお願いします。

防災ラジオをお持ちでない方は、企画環境課までご連絡ください！

※ニセコ町以外の地域でも、全国の一部市区町村で同様の訓練が行われる予定です。

Your Emergency Radios will activate automatically during a Civil Defense Emergency Drill.

Civil Defense Emergency Drill.

11th November. 2026 (Wed.) from 11:00 am ”Civil protection information"

Details of Announcement

During this “Civil Defense Emergency Drill”, the emergency radio sets that have been distributed throughout the community will automatically activate, after which a buzzer signaling an emergency situation will sound out at the highest volume level, this alert will be followed by a Civil Defense Emergency Message.

Purpose of the Civil Defense Emergency Drill

In Niseko Town when there is a civil emergency of any type, such as a natural disaster (earthquake etc) or if there is a terrorist attack or military action that puts citizens in danger, the national alert system J-Alert automatically triggers the emergency radio sets that have been distributed throughout the community. This drill has been devised to ensure that the J-Alert system is operating correctly and that the community has awareness of how the J-Alert system operates in the case of an emergency.

Note: In addition to Niseko Towns civil defense emergency drill, towns and cities across Japan will be employing various methods to broadcast a civil defense emergency message during this training exercise.

■ For Further Details on this Civil Defense Emergency Drill/ General Administration – Civil Defense Division; **Contact:** Ozaki / Takahashi
